

## International Conference on Materials Engineering (ICME 2017)

### Guidelines for Technical Poster

#### General

- Poster should be of the same title that has been indicated at the time of submitting the abstract.
- The registered author should bring the poster with her/him. Do not send/ship the poster.
- The poster should be placed on the provided display-board in the morning and it should be kept there for that day. Poster session is from 4-5 PM on June 2 and June 3.
- The display-board carrying the assigned poster number as well as tapes will be provided by the organizers.

#### Poster Presenter

- The presenter of the poster must have registered for the event and must be one of its authors.

#### Poster Specifications

- Poster should be 33 inch (width) x 43 inch (height).
- The font size for the title and author names should be larger than the remaining text. For the main-body of the poster, select font size which would enable reading it from about three feet distance so that a large group could read the poster at the same time. Font type should be such that it is legible.
- Presenting author(s) must remain near the poster during specified time slots (4 PM – 5 PM) in order to interact with the team of judges who will assess the posters.
